

# RIGELS AHMATI

## Software Developer

Passionate software developer with over 2 years of hands-on experience in web application development. Skilled in .NET, JavaScript, SQL and many more, I enjoy building efficient and scalable solutions. Currently advancing my studies in ICT at Aleksandër Xhuvani University, I thrive in real-world projects that challenge my problem-solving skills

## Education

- Aleksandër Xhuvani University**  
Bachelor in Information and Technology  
2025 - 2028
- Shkolla Profesionale Elbasan**  
ICT Program  
2021-2025

## Skills

- Full Stack
- OOP
- C#
- ASP.NET
- ASP.NET Core
- ASP.NET MVC
- SQL
- Entity Framework
- SLQ Server
- LINQ
- Git
- Rest API
- Debugging
- Python
- HTML
- Js
- JQuery
- Css
- Bootstrap
- Team Working
- Problem-Solving
- Communication
- Adaptability
- Continuous Learning
- Work under pressure

## Experience

- Software Developer**  
Elite Travel Group  
Jan 2024 - Present  
I've been deeply involved in developing and maintaining real-world web applications that support the company's daily operations. My work has spanned both the back end and front end – designing scalable systems, implementing clean architectures, and delivering reliable business solutions.  
I've built robust APIs and backend logic using C#, .NET, Entity Framework, LINQ, and SQL Server, ensuring performance and maintainability. On the front end, I've developed user-friendly interfaces with HTML, CSS, Bootstrap, JavaScript, and jQuery, focusing on responsive layouts and intuitive UX.  
Through close collaboration with cross-functional teams, I've strengthened my problem-solving, communication, and teamwork skills – consistently delivering efficient and maintainable code under tight deadlines.
- Software Developer Internship**  
Elite Travel Group  
Oct 2023 - Dec 2023  
During my internship, I contributed to internal system development using ASP.NET Core and Entity Framework. I worked alongside senior developers to design new features, improve data handling, and enhance UI consistency with Bootstrap and JavaScript. This experience gave me valuable exposure to full-stack development in a real business environment.
